

2025
ANNUAL REPORT
Maryville
INTEGRATED CARE

Message from Our CEO

Dear Friends,

As we look back on 2025, I am filled with gratitude for the extraordinary people who make Maryville Integrated Care what it is today. Every day, our clinical, recovery support, administrative, and leadership teams come together with a shared purpose: helping individuals and families find hope, healing, and a path forward. The commitment they bring to this work is remarkable and remains the most important thing behind every success we achieve as an organization.

This year marked another period of meaningful growth for our organization. As the need for behavioral healthcare services continued to increase throughout New Jersey, Maryville expanded programs, strengthened community partnerships, and created new opportunities to improve access to care. Our integrated care model remains centered on the belief that lasting recovery requires attention to the whole person, addressing substance use, mental health, physical health, housing stability, employment, family support, and other social determinants of health.

During 2025, Maryville served more than 12,700 individuals across our residential, outpatient, recovery support, and integrated care programs. Our Certified Community Behavioral Health Clinics in Voorhees, Vineland, and Turnersville continued to provide comprehensive, coordinated care for individuals and families with complex healthcare needs, serving 2,061 people throughout the year. Our peer recovery teams assisted over 2,500 individuals with housing, treatment access, transportation, employment, education, benefits enrollment, and other essential supports that contribute to long-term recovery and wellness.

Among our most significant accomplishments this year was the expansion of services for adolescents and families through new grant funding awarded by the New Jersey Department of Children and Families. These investments have allowed Maryville to further strengthen prevention, early intervention, treatment, and recovery support services for youth, creating additional opportunities to engage young people and families before behavioral health challenges become crises.

We were also honored to receive funding through the New Jersey Division of Mental Health and Addiction Services to develop a Medical-Legal Partnership, an innovative model designed to address the legal and social barriers that often impact health outcomes. This initiative reflects our ongoing commitment to addressing the broader factors that influence recovery, health, and overall quality of life while strengthening our ability to serve individuals with complex and interconnected needs.

Our residential treatment programs in Williamstown and Pemberton continued to provide lifesaving withdrawal management and residential treatment services, with more than 3,000 admissions. Across all levels of care, clients achieved meaningful outcomes related to recovery, housing, employment, education, family reunification, and overall health and wellness. These successes are not measured solely by statistics, but by the stories of individuals and families whose lives have been transformed through treatment, support, and recovery.

As we look to the future, Maryville remains committed to thoughtful growth, innovation, and collaboration. We will continue to expand access to integrated healthcare services, strengthen community partnerships, and pursue opportunities that allow us to better meet the evolving needs of those we serve.

None of this work would be possible without the dedication of our employees, the guidance of our Board of Directors, the support of our community partners, and the trust placed in us by the individuals and families who choose Maryville as part of their recovery journey. Together, we are building stronger communities and creating opportunities every day.

Thank you for your continued support of Maryville Integrated Care and for helping us advance this mission.

Sincerely,

A handwritten signature in blue ink, reading "Jared R. Levy". The signature is fluid and cursive, with a large, stylized "J" and "L".

Jared Levy, MBA, CPA
Chief Executive Officer
Maryville Integrated Care

Our Services

Core Services

- Inpatient Withdrawal Management
- Residential Treatment Services
- Outpatient Treatment Services
- Community Programs

Each individual's journey is unique, so we offer specialized services to help meet as many needs as possible.

- Peer Recovery Supports
- Outreach Services
- Legal Services
- Housing Supports
- Harm Reduction

Mission Statement

Maryville helps individuals and families improve their health and wellness by providing high quality integrated mental health, physical health, and substance use treatment, recovery supports, and education.

Accreditation

CARF International Accreditation **ASPIRE to Excellence®**

Maryville is accredited by CARF International. CARF is an independent, nonprofit accreditor of health and human services and was founded in 1966 as the Commission on Accreditation of Rehabilitation Facilities.

Accreditation is a comprehensive review to determine if a provider's services meet international standards of quality. Achieving accreditation represents the provider's commitment to delivering safe and effective services while participating in ongoing performance improvement.

I have been with charitable organizations for my whole career but working at Maryville Integrated Care is different than any other. Maryville has changed me in ways I never expected. This work is not easy—it challenges you emotionally, mentally, and sometimes physically—but it is the most rewarding work I have ever done. Every single day, I witness compassion in action. The staff here are truly outstanding: deeply committed, endlessly patient, and driven by genuine care for the people we serve. This is not just a job for anyone on this team; it is a calling.

We show up every day knowing that what we do matters. We are helping people during some of the most vulnerable moments of their lives, offering hope when they feel hopeless and support when they feel alone. Seeing someone take steps toward recovery—sometimes small, sometimes life-changing—is profoundly moving. It reminds me why this work is so important.

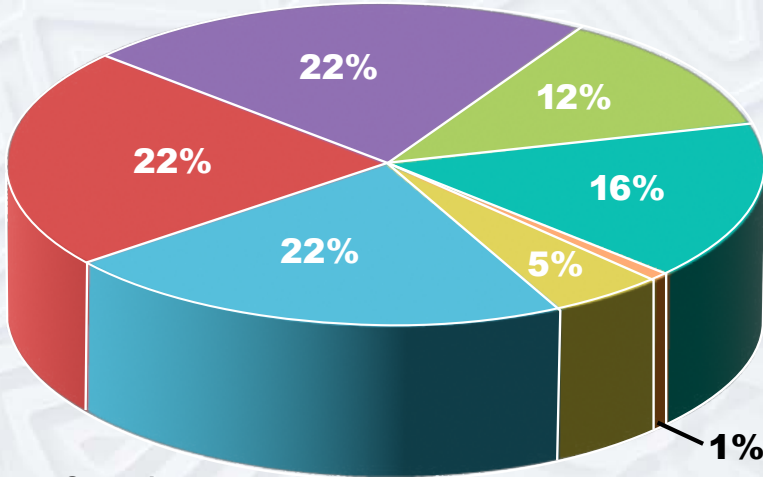

There is something incredibly powerful about being part of a community that believes in second chances and treats every person with dignity, respect, and compassion. The emotional investment is real, and the days can be heavy, but the impact is even greater. Knowing that our collective effort is truly saving lives gives my work meaning beyond words. I am proud to stand alongside such an extraordinary team and grateful every day to be part of work that changes lives—including my own.

~ **Mary Jo Bernardo, Director of Performance Improvement & Corporate Compliance**

Our Clients

Service Type

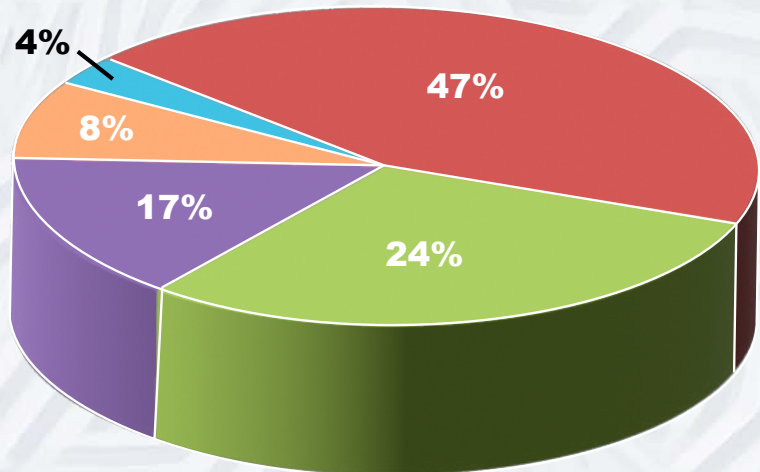

- Outpatient
- Short Term Residential
- Withdrawal Management
- In Community
- Intensive Outpatient
- Toxicology
- Long Term Residential

I've been with Maryville since 2019, and in that time, my life has completely transformed. I've grown from a counselor into a leader, and from a person into a mother of two. The support I've found here made that possible. Entering Maryville during COVID-19 was a trial for all of us, but it taught us how to show up for a challenged clientele with even more heart. We built a framework of gratitude during the hardest years imaginable. Maryville always rises above, and I'm so grateful to grow alongside this team.

~Deena Gutch, Clinical Supervisor

Substance of Choice

- Alcohol
- Heroin & Other Opiates
- Cocaine/Crack
- Other Drugs
- Marijuana

I have the great opportunity to volunteer with Maryville Integrated Care. I have been blessed throughout my life to have had people that have guided me through my life journey. Several of those people were unfortunately touched with addiction. My father was one of those people. As I grew up, I was not aware of organizations like Maryville and all they do every day for their clients. I could not help my father; however, I can help others that are experiencing what he experienced. It is a privilege to volunteer. Hearing from clients, their stories and how they are moving forward is the most rewarding and energizing part of the volunteer experience. It is a great reminder that we all can make an impact.

Recovery Helps Mend a Broken Heart

Willie Turner, Maryville Alum

I was a patient at Maryville Integrated Care almost two years ago. My wife had passed away after over 33 years of being with one another and I was heartbroken. I began smoking marijuana and drinking pretty heavily. I knew that I needed help so I checked in to Maryville, which was a major turning point. I learned a lot about recovery. Once I left there, I didn't use marijuana or alcohol thanks to what I learned in treatment. Maryville had helped place me in a sober living house and I was successful there due to the foundation Maryville helped me build. Some time later, my eldest sister passed away and I had to fly home to Chicago where I briefly relapsed. I was away four days and as soon as I finished with the funeral services, I returned to New Jersey and got back on track. Now I am doing well and moving into a senior living complex. Thanks to the help I received and the knowledge I learned at Maryville Integrated Care, I'm a different person today!

Pain Into Purpose

Kareema Bentley

There was a time in my life when everything felt heavy. I was carrying emotional pain I didn't fully understand, and it began to affect how I showed up in my daily life—my relationships, my peace, and even my sense of identity. On the outside, I may have looked like I was holding it together, but inwardly, I was overwhelmed. I found myself crying out to God for help, for direction, and for a way forward. That cry did not go unanswered. My journey to Maryville was more than a decision...it was a step of faith. I knew I needed help, but I also needed a place where I could feel safe enough to be honest about what I was going through. From the moment I connected with Maryville, I felt seen. I felt heard. And for the first time in a long time, I felt hope. Maryville became a place of restoration for me. Not just a program, but a process that helped rebuild me from the inside out. Through their support, I began to face what I had been avoiding. I learned how to process my emotions, develop healthier ways of thinking, and release the weight I had been carrying for so long. The staff showed consistent care, patience, and compassion, and through that, I experienced what it truly means to be supported without judgment. God used Maryville as part of my healing. "He heals the brokenhearted and binds up their wounds" (Psalm 147:3). That scripture became more than words—it became my reality. Something shifted in me during my time there. I moved from simply surviving to learning how to live again—with intention, with clarity, and with faith. I began to see myself differently—not through the lens of my pain, but through the truth of who God created me to be. Today, I am stronger. I have peace I didn't have before. I have tools to navigate life in a healthier way, and I have faith that continues to guide me forward. My life is no longer defined by what I went through, but by how I've grown through it. Maryville was a turning point in my life. What started as a cry for help became a testimony of healing, strength, and restoration. And for that, I will always be grateful.

"What once broke me, God used to rebuild me—and Maryville was part of that miracle. He turned my pain into purpose and rewrote my story from brokenness into healing. What began as a struggle has become a testimony of strength, growth, and new beginnings. My journey is proof that healing is possible and transformation is real. I am no longer defined by my past, but by the purpose I now walk in. This is more than my story—it's a reflection of what restoration looks like: from broken to rebuilt, from hurting to healed. This is what transformation looks like."

Transforming Lives with Proven Results

- Maryville served 12,758 unduplicated individuals through inpatient and outpatient treatment, support services, and community programs.
-

- Maryville placed nearly 900 clients in sober living housing throughout the state.
-

In client discharge surveys:

- 95% of Maryville clients stated they would recommend us to a friend or family member in need of services.
 - 95% of Maryville clients felt they had gained the skills necessary to support their recovery.
-

At our Certified Community Behavioral Health Clinics (CCBHC), where integrated substance use, mental health, and medical care is offered:

- 2,061 individuals received treatment and supportive services.
 - 981 individuals obtained health insurance.
-

In our inpatient programs:

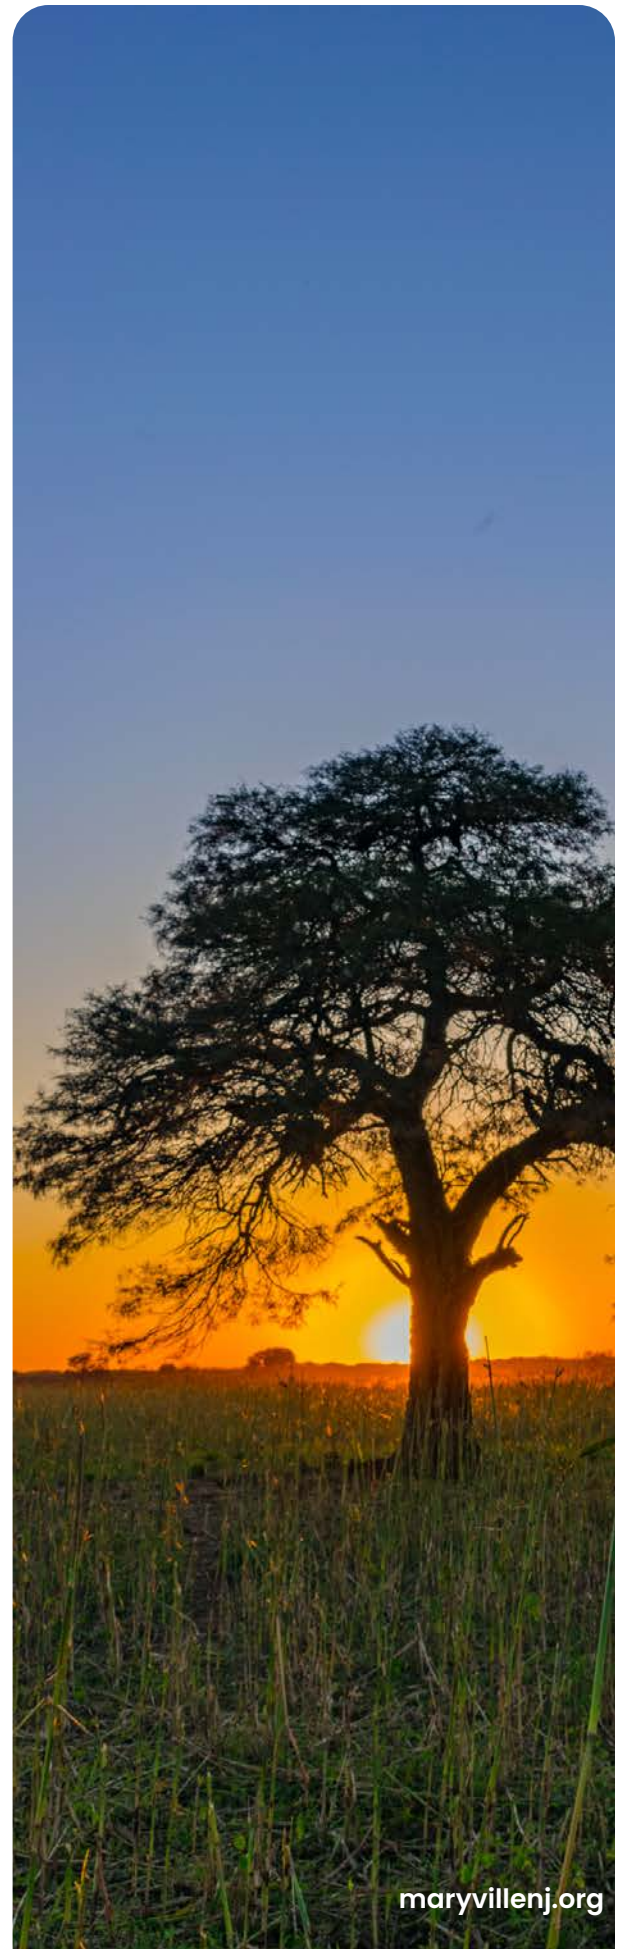

- 3,319 admissions occurred
-

Through our Family Education and Support Group:

- We facilitated 40 group sessions, assisting 246 people to better understand and cope with their loved ones' addiction.
-

Through our Housing Supports Program:

- 115 individuals received housing assistance
-
- Outreach Services were provided to 2,302 individuals
-
- Certified Peer Recovery Specialists engaged 1,476 homeless shelter guests with recovery education, supports, and access to treatment.

Awards and Acknowledgment

During the 2025 New Jersey Association of Mental Health and Addiction Agencies (NJAMHAA) Courage & Compassion Awards, **Kendria McWilliams** received the Lifetime Achievement in Visionary Leadership award and **Maryville** was named Outstanding Provider of the Year.

At NJAMHAA's Integrated Case Management Services Conference, **Arthur Payne** was recognized as Case Manager of the Year for Gloucester County.

Nicole MacHenry and Martha Everwine represent their 3rd place win in the 2025 **NJ Social Innovation Awards**. Maryville's Medical-Legal Partnership took 2nd place.

Kendria McWilliams received SJMag's Women of Excellence Lifetime Legacy Award.

A Vision Realized: Kendria McWilliams Leaves Lasting Impact on Maryville

Following 14 highly effective years at Maryville Integrated Care, CEO Kendria McWilliams announced her retirement, which took place in September 2025.

As CEO, Kendria was responsible for the strategic direction and day-to-day operations of one of New Jersey's largest non-hospital behavioral healthcare systems. With a strong emphasis on expanding access to care and enhancing quality services, Maryville became a highly respected leader in the behavioral health field.

"It has been my honor to be part of the Maryville family and to work alongside such a dedicated and talented team of board members and staff committed to improving the health and well-being of those we served. Together, we strengthened the foundation of our organization, ensuring that our mission would continue for another 75-plus years."

During her tenure, Kendria oversaw significant organizational growth, expanding to five physical locations throughout South Jersey, increasing the annual operating budget by \$20 million, and building a comprehensive continuum of care. Under her leadership, the agency transitioned from Maryville Addiction Treatment Center to Maryville Integrated Care, offering prevention, education, inpatient and outpatient substance use and mental health treatment, Certified Community Behavioral Health Clinic integrated care, and recovery support services to more than 9,000 individuals annually.

Specialized medical services, medication-assisted treatment, care management, peer recovery, alumni, and overdose reduction programs for underserved populations were developed both within facilities and throughout the community in partnership with dozens of medical, social service, and government agencies. Additional programming for Spanish-speaking individuals, the LGBTQIA+ community, and adolescents also expanded substantially. Outcomes for these innovative programs and services proved highly successful, paving the way for continued growth and replication.

Throughout her leadership, Kendria remained focused on the evolving needs of the community and worked diligently to address those needs in real time. She received a Top CEO Award from New Jersey Business & Industry Association in 2020, along with

continued on next page

A Vision Realized

(continued from previous page)

numerous awards and recognitions from state leaders and advocacy organizations. In April 2025, she received the Lifetime Achievement Award in Visionary Leadership from the New Jersey Association of Mental Health and Addiction Agencies in recognition of her outstanding service to Maryville Integrated Care and the State of New Jersey.

“As Kendria prepares for the next chapter of her life, I wanted to express how fortunate we have been and grateful I am for all she has done as the leader of Maryville over the years. She has built an exceptional team that provides exceptional service for our clients. I am honored to know her, have worked with her and I will miss her along with her guidance and mentorship. We are not saying goodbye, only au revoir,” shared Maryville Board of Trustees President Richard Lockwood.

Maryville’s immediate past Board President Jerry Warner stated, “Over the nearly past ten years, first as a member of the Maryville Board of Directors, then, as its President, I was able to experience, first-hand, the extraordinary dedication and focus of Kendria as the CEO of Maryville. Under her exceptional guidance and leadership, Maryville’s mission to support behavioral healthcare services for individuals and families expanded dramatically. Kendria has been the driving force behind the growth and expansion of the mission of Maryville. The exceptional quality of her leadership, its depth and impact throughout the entire Maryville organization, external partner agencies and community service groups has been repeatedly, and most deservedly, recognized and honored. It has been a privilege to be able to support the selfless efforts of Kendria and her entire team in their vision for Maryville to serve as an integrated health care system servicing adults, families, and communities.”

Introducing Jared Levy, New Maryville CEO

Although Jared Levy is newly stepping into the public spotlight as Chief Executive Officer, he is far from new to the Maryville team. Over the past decade, staff have come to know him well through his leadership as both Chief Financial Officer and Chief Operating Officer. Whether he’s visiting one of Maryville’s five locations, pitching in wherever help is needed, collaborating with team members to address challenges, or sharing stories about his family, Jared is a familiar and approachable presence.

Outside of work, Jared and his wife, Dawn, stay busy raising their three children - two daughters, ages 11 and 8, and a 5-year-old son. He often reflects on how meaningful this stage of life has become. As he puts it, “I’ve really embraced being a dad,” finding joy in everything from attending sporting events and shuttling kids to activities to simply spending time together on family walks in nature.

In his new role as CEO, Jared emphasizes accessibility and teamwork. He wants employees to feel comfortable reaching out, noting that he is committed to maintaining an open-door policy and cultivating a culture where collaboration and mutual support are the norm. Looking ahead, he remains optimistic and driven. Maryville’s mission, he says, is unwavering: to support individuals facing addiction and mental health challenges. As community needs evolve, he is confident the organization will continue to respond with empathy and high-quality care.

Under Jared’s leadership, Maryville is preparing for several key initiatives, including the opening of a third outpatient site in Voorhees, the launch of an opioid treatment program in Turnersville, and the development of a medical-legal partnership that will bring legal services to clients across Maryville’s outpatient and inpatient programs. In addition, the organization plans to broaden its adolescent services throughout Camden, Cumberland, Gloucester, and Salem counties.

Since joining Maryville Integrated Care in 2019, I have had the privilege of witnessing firsthand the incredible impact this organization has on individuals, families, and communities. Throughout the years, I have seen lives transformed through compassion, support, treatment, and genuine human connection.

The work we do is more than a job—it is meaningful, rewarding, and life-changing. Every day brings an opportunity to help someone move toward recovery, stability, hope, and a better future. Being part of that journey is something I am truly grateful for.

What makes Maryville Integrated Care so special is the commitment to caring not only for the individuals we serve, but also for the wellbeing of our staff, community partners, and one another. Maryville leads with compassion, integrity, and a true dedication to helping people heal and rebuild their lives.

I am proud to be part of an organization that continues to make such a positive difference in the lives of so many people, and I look forward to continuing this important work for years to come.

~ Delia Burgos, CPRS Supervisor

Connecting to Community, Celebrating Recovery

Maryville Recovery for Life Gala Raises More than \$172,000

On March 28, 2025, Maryville held its 12th Annual Recovery for Life Gala at Tavistock Country Club. The Advocacy in Action award was presented to three individuals who support Maryville's mission and the recovery community: Victor G. Carstarphen, Mayor, City of Camden; Michael L. Testa, Jr., New Jersey State Senator, Legislative District 1; and Brian W. Jones, President & CEO of The First National Bank of Elmer.

Nearly 250 guests enjoyed live music, great food, and a silent auction, raising more than \$172,000 to support the programs and services of Maryville Integrated Care. Hilary Phelps served as guest speaker. An advocate, coach and facilitator celebrating 18 years of sobriety, Hilary shares her story nationally to encourage others facing substance use challenges.

Maryville Launches Golf Classic

The **Maryville Golf Classic: Teeing Up for Mental Wellness and Recovery** was held on Monday, June 9th at Deerwood Country Club. Presented by The Lerepco IT Group, this year's event was a wonderful success, with proceeds benefiting Maryville's expanding mental health and addiction treatment programs. A little rain did not dampen the day. Golfers enjoyed the opportunity to play, connect, and support a great cause.

Congratulations to our first-place foursome:
Jim Wujcik, Chip Smith,
Dale Groff, and Tim Little.

Raising Support, Delivering Impact

Race for Recovery Raises Nearly \$40,000 for the Peter P. Black IV Scholarship Fund at Maryville

Maryville's 17th Annual Race for Recovery 5K Run & Fun Walk, presented by The Piperno Family, was held on Saturday, September 27th at Cooper River Park! Approximately 225 runners, walkers, volunteers and supporters came together to raise critical funds for treatment and celebrate recovery. Nearly \$40,000 was raised to benefit the Peter P. Black IV Scholarship Fund at Maryville, which helps those unable to afford treatment. The fund was founded by Kathleen "Kate" Holt in honor of her son Peter, who passed away from a substance use disorder.

Expanded Funding & Program Growth

Maryville Receives Primary Mental Health Outpatient Licenses

For decades, Maryville Integrated Care has provided comprehensive co-occurring mental health services, ensuring that individuals receiving inpatient or outpatient substance use treatment could also address their mental health needs at the same time. Today, we are proud to expand those services even further.

Both of our outpatient facilities are now licensed to provide primary mental health services for adults and adolescents ages 11 and older. Individuals and families can access care from licensed therapists and psychiatric nurse practitioners at our locations in Turnersville and Vineland, as well as through convenient telehealth appointments.

In addition, we offer specialized programming designed to support the unique needs of the LGBTQIA+ and Spanish-speaking communities, helping ensure culturally responsive and inclusive care for all.

Our team is excited to broaden the reach of our mental health services and continue supporting individuals and families through compassionate, high-quality care.

Maryville is Awarded Funding for Medical-Legal Partnership

Through New Jersey Division of Mental Health and Addiction Services funding, Maryville launched a Medical-Legal (MLP) Partnership this year, a collaboration between health care providers and attorneys that aims to tackle social needs impacting health.

*Connecting legal support
with health care to address
the social factors
that affect health*

MLPs work to improve health equity by incorporating legal services into health care settings. Attorneys address legal needs such as housing, employment, immigration, and family law matters.

This type of initiative also helps reduce stress, improve mental health, and improve treatment adherence. Services are available at our Williamstown, Pemberton, Turnersville, and Vineland sites.

Expanded Funding & Program Growth

Adolescent Program Receives Expansion Funds

The New Jersey Department of Children and Families awarded Maryville funding to expand its adolescent substance use services to include Camden and Burlington Counties. Services will be delivered at our new Voorhees location. The adolescent program serves youth ages 11 – 17 and is also available in Cumberland and Gloucester Counties.

Housing Supports Come to Maryville

Through the New Jersey Department of Community Affairs, Maryville Integrated Care was awarded seed funding to launch housing services and supportive programs for individuals experiencing homelessness or at risk of becoming homeless. This funding has enabled Maryville to add a dedicated housing case manager to its team, expanding access to critical supports that promote long-term stability and independence.

Services focus on housing stability, financial wellness, life skills development, community connection, and overall health and wellness.

*Supporting stability, independence
and overall well-being*

NJ Department of Health Funds Maryville to Begin Harm Reduction Program

The New Jersey Department of Health funded Maryville to provide harm reduction outreach services in Burlington County. This award allows us to travel to certain high-need areas in the county and provide naloxone (Narcan), Fentanyl test strips, Xylazine wound care, and a syringe access program, among other harm reduction efforts including education and linkages.

According to the Centers for Disease Control and Prevention (CDC), studies show those who use syringe access programs have a much higher likelihood of entering treatment and discontinuing drug use. Harm reduction supports the health and well-being of both individuals and communities by encouraging safer practices and reducing potential risks in the interim.

Expanded Funding & Program Growth

Maryville Named Provider of Burlington County Recovery Resource Center

In 2025, Burlington County awarded Maryville the contract to operate their Burlington County Recovery Resource Center (RRC), located in the Human Services Building in Westampton. Individuals from all recovery backgrounds can gather in this warm and welcoming, safe space for substance use disorder education, peer recovery support services, recreational events, housing assistance, linkages to other community resources, and training.

Classes may include topics such as wellness, nutrition, and illness management; self-care, stress management, financial management, literacy, employment, and parenting skills. Those in recovery can come to simply meet others on a similar journey and offer mutual support.

LGBTQIA+ Program Receives Grant for Mental Health Services

Maryville is a 2025 Bristol Myers Squibb Foundation NJ SNIP grant awardee. With this funding, we have launched a mental health treatment and support program specifically for the LGBTQIA+ population. Members of the LGBTQIA+ community experience significant mental health inequities that are often linked to discrimination, societal stigma, and limited access to affirming and culturally responsive care. As a result, many individuals are at increased risk for conditions such as anxiety, depression, and post-traumatic stress disorder (PTSD).

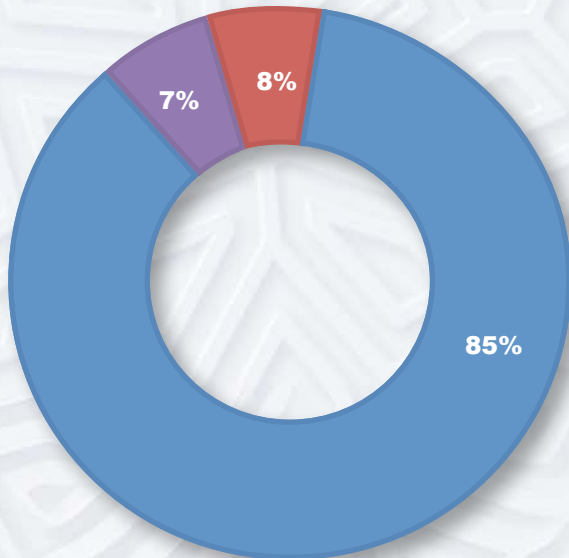

According to the National Alliance on Mental Illness (NAMI), LGBTQIA+ adults are more than twice as likely as their heterosexual counterparts to experience a mental health condition, with nearly 60% reporting significant mental health challenges. This NJ SNIP grant allows us to provide targeted treatment in a safe environment by staff who are members of the LGBTQIA+ community.

Targeted treatment in a safe, affirming environment

Overall Financial Position

I was hired to be a part of the staff at Maryville in February of 2023. From the time I had my first interview, I knew this was the company I wanted to work for. The staff at Pemberton have been nothing but kind and always willing to help me if I had a question about anything. I love the teamwork and going beyond the call of duty at Maryville.

As a Drug and Alcohol Intensive Case Manager at Maryville, it has been very rewarding to be able to help our clients with their recovery during their time with us and in the community afterward. I am so glad that God answers prayers to be able to work for such a great organization. I have not looked back since!

~Crystal Niblack, Drug and Alcohol Intensive Case Manager

I started working at Maryville back in 2024 as a Peer Recovery Specialist while I finished my schooling for Addictions Counseling. I have since become a counselor Intern at the Williamstown location. I noticed very quickly the family dynamic here at Maryville and felt so welcomed and supported by the staff members and directors! Everyone is always willing to lend a helping hand no matter what department they are part of. Maryville and all of its employees are here for the same reasons and have such a drive and passion behind their work. Coming to work every day feels like such a blessing, not just because we are saving lives but because I get to do it with people with whom I enjoy spending my days!

~ Giovanna Mufalli, Counselor Intern
